

## Research Opportunity:

# Help researchers understand what foster youth think about their relationships with adults

We want to hear about your experiences now and in the future!

### ABOUT

Our research team is conducting a study to find out what it's like for youth to be in foster care and what helps youth reach their goals once they leave foster care.

We are looking for foster youth to answer some questions online or be interviewed by a researcher to help us answer important questions.

Your voice is important and can have a positive impact on the lives of other youth in foster care!

### PARTICIPATE

If you are in court and want to participate, let the court coordinator or the researchers know. The court coordinator will allow you to complete a survey on an iPad in the courtroom. The survey will take about 30 minutes.

If you are at home, you can access the survey with the URL listed below. You will need to enter the participant ID number provided to you.

After you complete this first survey, you will be sent 3 smaller mini-surveys throughout the year. These mini-surveys will only take 5-10 minutes.

Once a year, you will be asked to complete a 30-minute survey.

We will be randomly selecting some youth to interview. The research coordinator will contact you to schedule an interview if you are selected.

### THANK YOU!

To thank you for your time, you will receive a \$25 gift card now. You will also receive a \$15 gift card for each mini-survey you complete, along with another \$25 gift card for the annual survey. You will also receive a \$25 gift card if you participate in a verbal interview.

Access the survey:
